

Data Sheet for Nursery Bench Leachate Test

Evaluators:

Assisting:

Project:

Date:

Location:

Sample #	Species	Planting date/age	Age / transplant date current container			
Container size	Containers in this test	Lot test of	Plant Lot			
Irrigation schedule pretest						
Collection area size	Tested in place or moved		ZCV - std / mini		Photo taken	
How were plants selected for testing?						
Symptoms in tested plants						
Temp - soil in pots preirrigation			Temp - Irrigation water			
Temperature logging:			Start time:			
Irrigation start time	1st	2nd	3rd	4th	5th	6th
Water temp in collector						
ZCV overflow starts						
End: Time pear/water transferred to bag:			water temp:			
Notes
